JOURNAL OF ALLOYS AND COMPOUNDS VOLUME 188, NUMBERS 1–2, OCTOBER 19, 1992

Contents

Preface v

Committees vi

The role of the inductive effect in solid state chemistry: how the chemist can use it to modify both the structural and the physical properties of the materials. 1
J. Etourneau, J. Portier and F. Ménil (Talence, France)

Nanostructures in sol–gel derived materials: application to the elaboration of nanofiltration membranes 8
C. Guizard, A. Julbe, A. Larbot and L. Cot (Montpellier, France)

Diphosphate structures related to the dichromate or thortveitite type 14
A. Boukhari (Rabat, Morocco)

Phase transitions and modulated structures in aluminate sodalites. 21
W. Depmeier (Berlin, Germany)

The crystal chemistry and dielectric properties of the Aurivillius family of complex bismuth oxides with perovskite-like layered structures 27
B. Frit and J. P. Mercurio (Limoges, France)

Monovalent copper in insulators 36
G. Le Flem (Talence, France)

Two-dimensional SiC/SiC composites processed according to the isobaric–isothermal chemical vapor infiltration gas phase route 42
R. Naslain (Pessac, France)

Microstructure and thermomechanical behavior of a new class of materials: ceramic matrix composites. 49
J.-L. Chermant and M. Gomina (Caen, France)

Synthesis, characterization and catalytic behaviour of $Cu_{0.5}M_2(PO_4)_3$ (M≡Zr, Sn, Ti) 60
A. Serghini, R. Brochu, M. Ziyad (Rabat, Morocco) and J. C. Vedrine (Villeurbanne, France)

Effect of humic compounds and some organic acids added during dicalcium phosphate dihydrate crystal growth process 65
M. Freche and J. L. Lacout (Toulouse, France)

Occurrence of superconductivity in $La_{2-x}Ba_xCuO_4$ ($0 \leqslant x \leqslant 0.04$) and $La_{2-x}Nd_xCuO_4$ ($0 \leqslant x \leqslant 0.3$) systems after fluorination. 69
C. Robin-Brisson, A. Tressaud, B. Chevalier, E. B. Salem, J. Hejtmánek, J. Etourneau (Talence, France), M. Cassart and J. P. Issi (Louvain-la-Neuve, Belgium)

Optical study of europium-doped garnet $Sr_3Y_2Ge_3O_{12}$ 75
E. Antic-Fidancev, M. Lemaitre-Blaise, P. Porcher, M. Taibi (Meudon, France) and J. Aride (Rabat, Morocco)

Vacuum UV excitation of luminescent materials by synchrotron radiation — electronic structure. 77
J. C. Krupa (Orsay, France), I. Gerard (Saint-Egrève, France) and P. Martin (Orsay, France)

Optical properties of Eu^{3+} activated $Sr_{10}F_2(PO_4)_6$ elaborated by coprecipitation 82
A. Zounani, D. Zambon and J. C. Cousseins (Aubière, France)

Preparation and characterization of melt-spun nickel-based alloys containing heavy metals 87
S. Lebaili (Algiers, Algeria), J. Ajao (Ile-Ife, Nigeria) and S. Hamar-Thibault (St. Martin d'Hères, France)

Characterization of irradiation defects using positron annihilation spectroscopy in γ-NiSb and δ-Ni_2Si intermetallic phases. 94
A. Jennane, J. Bernardini (Marseille, France), P. Moser (Grenoble, France) and G. Moya (Marseille, France)

Crystal structure of the orthophosphate $RbBaPO_4$ 99
L. El Ammari (Karlsruhe, Germany) and B. Elouadi (Rabat, Morocco)

Elsevier Sequoia

Cell determination of $Na_3MgH(PO_4)_2$, a Glaserite type structure, and the effect of partial substitution of calcium for magnesium 102
M. B. Amor, S. S. Romdhane (Gabès, Tunisia) and M. Lallemant (Dijon, France)

Phosphates with Nasicon-derived structure: an extended X-ray absorption fine structure investigation 107
E. Fargin, I. Bussereau, R. Olazcuaga, G. Le Flem (Talence, France), C. Cartier, H. Dexpert and M. Verdaguer (Orsay, France)

Lithium intercalation in $Cu^{II}_{0.5}Ti_2(PO_4)_3$ 110
J. Bussereau, R. Olazcuaga, J. M. Dance, C. Delmas, G. Le Flem (Talence, France) and A. El Jazouli (Casablanca, Morocco)

Structure of $Cu^{I}_2CrZr(PO_4)_3$ by powder neutron diffraction 113
A. Boireau, J. L. Soubeyroux (Grenoble, France), P. Gravereau, R. Olazcuaga and G. Le Flem (Talence, France)

Synthesis, structure and properties of a new phosphate $Eu_{1/3}Zr_2(PO_4)_3$. 117
M. Alami, R. Brochu (Rabat, Morocco), C. Parent, L. Rabardel, C. Delmas and G. Le Flem (Talence, France)

Investigation of the glass–crystal transition of $Na_5Ti(PO_4)_4$. 120
S. Krimi, I. Mansouri, A. El Jazouli (Casablanca, Morocco), J. P. Chaminade, P. Gravereau and G. Le Flem (Talence, France)

Superexchange pathways in oxovanadium(IV) phosphates. 123
P. Amorós, A. Beltrán and D. Beltrán (Valencia, Spain)

Crystal chemistry of $Cd_2P_2O_7$–$A_2P_2O_7$ phosphates; A≡Sr, Pb, Mg, Co and Ni. 128
A. Alaoui El Belghiti, A. Boukhari (Rabat, Morocco) and E. M. Holt (Stillwater, OK, USA)

Crystal structure and magnetic properties of α-$Mn(H_2PO_2)_2 \cdot H_2O$ 133
M. D. Marcos, P. Amorós, F. Sapiña and D. Beltrán (Valencia, Spain)

Evolution of monocalcium phosphate monohydrate in solution containing humic matter 138
F. Bennani, M. Mikou (Fés, Morocco) and J. L. Lacout (Toulouse, France)

Localization of cadmium in cadmium-containing hydroxy- and fluorapatites. 141
A. Nounah, J. L. Lacout and J. M. Savariault (Toulouse, France)

Characterisation of zones resulting from the action of carbon dioxide laser impacts on dentinal hydroxyapatite 147
G. Marcon and B. Vidal (St. Martin-d'Hères, France)

Influence of crystallite size on the surface properties of calcium-deficient hydroxyapatites. 152
A. Barroug (Marrakech, Morocco), J. Lemaître (Lausanne, Switzerland) and P. G. Rouxhet (Louvain-la-Neuve, Belgium)

^{31}P and ^{11}B nuclear magnetic resonance investigations of borophosphate glasses: correlations between structure and chemical and physical properties 157
J. J. Videau, J. F. Ducel, K. S. Suh and J. Senegas (Talence, France)

Computer simulations of electron paramagnetic resonance spectra of P_2O_5–Li_2WO_4–Li_2O glasses 161
M. Haddad, A. Nadiri, A. Biyadi, M. E. Archidi (Meknès, Morocco), J. V. Folgado and D. Beltran-Porter (Valencia, Spain)

Synthesis and microstructure of bismuth-based mixed metal oxides from organic precursors. 165
P. Conflant, M. Drache, J. P. Wignacourt, M. Lagrenee (Villenueve d'Ascq, France) and B. Mernari (El Jadida, Morocco)

Synthesis and characterization of $NdNiO_3$ prepared by low temperature methods 170
J. Garcia, D. Beltrán, F. Sapiña and M. J. Sanchis (Valencia, Spain)

Bismuth(III)- and antimony(V)-based ceramics with anion-deficient fluorite structure 174
J. C. Champarnaud-Mesjard, M. Manier, B. Frit (Limoges, France) and A. Tairi (Casablanca, Morocco)

Iron–alumina interface in ceramic matrix nanocomposites 179
X. Devaux, Ch. Laurent, M. Brieu and A. Rousset (Toulouse, France)

Electron optical characterization of a supported rhodium catalyst 182
A. Legrouri (Marrakech, Morocco), T. Baird and J. R. Fryer (Glasgow, UK)

Phase transitions in $(CH_3NH_3)_3Bi_2Cl_9$ studied by calorimetric X-ray diffraction and dielectric methods 186
I. Belkyal, R. Mokhlisse, B. Tanouti (Marrakech, Morocco), N. B. Chanh and M. Couzi (Talence, France)

Evolution of the microstructure and of the mechanical properties of γ/γ' NiAlTi alloys during electron irradiation 190
N. Njah, O. Dimitrov (Vitry-sur-Seine, France) and D. Gilbon (Gif-sur-Yvette, France)

Effects of processing parameters on aluminium–lithium ribbon production 194
M. Hajjaji (Marrakech, Morocco), L. Cutler and G. L'Espérance (Montréal, Canada)

On three-dimensional defects in the Ni_3Al (γ') phase identified by the computed imaging technique 198
R. Bonnet (St. Martin d'Hères, France), A. Ati (Algiers, Algeria) and D. David (St. Martin d'Hères, France)

Pyrolysis and reactivity of Timahdit and Tarfaya (Morocco) oil shales 202
A. Attaoui and L. Belkbir (Rabat, Morocco)

$Na_3Bi(PO_4)_2$ type solid solutions; investigation of structural and electrical properties 206
M. Diouri, A. Sadel, M. Zahir (El Jadida, Morocco), M. Drache, P. Conflant, J. P. Wignacourt and J. C. Boivin (Villeneuve d'Ascq, France)

Effect of copper substitution on electrical transport properties of $(Bi,Pb)_2Mo_4$ (M≡Pd, Pt) linear chain compounds 211
N. Bettahar, P. Conflant and F. Abraham (Villeneuve d'Ascq, France)

Superprotonic phase transition in mixed ammonium–caesium acid sulphate $Cs_{0.9}(NH_4)_{0.1}HSO_4$ 215
T. Mhiri, A. Daoud, M. Bouachir (Sfax, Tunisia) and F. Romain (Thiais, France)

Effects of conventional and rapid thermal annealing on minority carrier diffusion length in float zone and Czochralski silicon crystals. 221
A. Barhdadi, H. Amzil, N. M'Gafad, T. Biaz (Rabat, Morocco), W. Eichhammer, J. C. Muller and P. Siffert (Strasbourg, France)

A discrete theory of the induced polarization of adsorbed atoms and molecules on an ionic crystal 225
B. Labani (El Jadida, Morocco), C. Girard (Besançon, France) and A. Ayadi (El Jadida, Morocco)

Crystallographic and magnetic studies of the mixed pyrophosphates $AMnP_2O_7$, A≡Co, Ni, Cu 230
K. Benkhouja, A. Sadel, M. Zahir (El Jadida, Morocco), P. Legoll and M. Drillon (Strasbourg, France)

Magnetic studies of ordered and disordered $NbFeO_4$ phases 234
G. Pourroy (Strasbourg, France), E. Coronado and F. Sapiña (Valencia, Spain)

Transport properties and magnetic hysteresis of high T_c superconductor $EuBa_2(Cu_{1-x}Fe_x)_3O_{7-\delta}$ 237
A. Zekri, M. Asfaj, A. Berrada (Rabat, Morocco), J. L. Dormman and G. Villers (Meudon, France)

Emission spectra and crystal field calculation of europium-doped C-type In_2O_3 oxide 242
E. Antic-Fidancev (Meudon, France), J. Aride (Rabat, Morocco), M. Lemaître-Blaise, P. Porcher (Meudon, France) and M. Taibi (Rabat, Morocco)

Magnetic measurements of point defect elimination in quenched CoGa and FeAl intermetallic compounds 246
O. Sassi, S. Benlemlih, J. Aride, A. Berrada (Rabat, Morocco) and G. Moya (Marseille, France)

On the Eu^{3+} luminescence in hexagonal $NaYF_4$ phase 250
D. Zakaria, M. T. Fournier, R. Mahiou and J. C. Cousseins (Aubière, France)

Two-photon spectroscopy of transition metal ions in cubical symmetry. 255
M. Daoud and M. Kibler (Villeurbanne, France)

Crack growth resistance from natural crack lengths in a polycrystalline alumina 259
M. Drissi-Habti and M. Gomina (Caen, France)

Effect of strain on stored energy and recrystallization of straight-rolled silver 264
A. Zahia, F. Salhi, J. Aride (Rabat, Morocco), D. Moya-Siesse and G. Moya (Marseille, France)

Mechanical properties of internally oxidized silver alloys 268
B. M. Semega, M. Kherraz (Rabat, Morocco), L. Charrin, A. Combe (Marseille, France) and J. Aride (Rabat, Morocco)

Raman study of the mechanisms of formation of water–monomethylhydrazine solid mixtures. 272
J. C. Bureau, T. El Widadi, Z. Sassi, M. Diot, M. T. Cohen-Adad, M. Ferriol (Villeurbanne, France) and A. Laachach (Rabat, Morocco)
